Platforms: <https://dhad.me> | <http://muqtabasat.com>

PROFESSIONAL SUMMARY

Accomplished and strategic Lead Full Stack Engineer with a solid foundation in computer information systems and extensive experience directing the entire software development lifecycle. Highly proficient in designing enterprise backend ecosystems utilizing PHP 8.3 and Laravel 12, building responsive admin panels and web applications with React 19 and Next.js 16, and engineering cross-platform mobile apps using Flutter 3.35 and Dart 3.9. Proven expert in deploying containerized, serverless cloud solutions on Google Cloud Platform (GCP), orchestrating highly scalable SQL (PostgreSQL, MySQL) schemas, and implementing efficient Redis caching mechanisms. Adept at managing system security, navigating strict data privacy guidelines, and transforming abstract concepts into high-impact digital platforms.

TECHNICAL SKILLS

Backend Architecture: PHP 8.3, Laravel 12, ASP.NET, C#, Python

Web Frontend: Next.js 16, React 19, JavaScript, TypeScript, Tailwind CSS, Vue.js 3

Mobile Engineering: Flutter 3.35, Dart 3.9, GetX State Management, API Asynchronous Parsing

Cloud Infrastructure (GCP): Cloud Run (Containerization), Cloud SQL, Cloud Storage, Secret Manager, Redis Caching

Databases & Version Control: MySQL, PostgreSQL, Query Optimization, Git, GitHub Pipelines

Core Competencies: Lead Technical Architecture, HealthTech Compliance (PDPL/HIPAA Mindset), Clean Code Maintenance, Secure Video APIs Integration Concepts, Remote Team Leadership

EXPERIENCES & PROJECTS

Lead Full-Stack Engineer

dhad.me & muqtabasat.com (Live Arabic Digital Platforms) | 2023 – Present

- * Conceptualized, architected, and maintained production-grade, multi-tier web platforms from inception to deployment, managing end-to-end full-stack architectures.
- * Designed and exposed robust RESTful APIs using modern backend frameworks, coupling them with advanced relational database structures to manage high-volume daily transactions and ensure sub-second response times.
- * Implemented clean code principles, version control workflows, and strategic security barriers to safeguard user data entities and optimize application performance across web and mobile layouts.

Senior Full-Stack Developer

Enterprise Management & Distribution System | 2022 – 2023

- * Led the technical alignment and deployment of an automated distribution enterprise platform, writing secure backend pipelines via Laravel and responsive frontend views using modern web technologies.
- * Engineered optimized MySQL database schemas, integrated structured query performance tuning, and implemented layered data protection layers to maintain high system availability.
- * Mentored team members, conducted thorough code reviews, and managed seamless API integrations across internal systems to streamline corporate logistics.

Backend & Systems Engineer

AFAQ HADHRAMAUT Travel Booking Engine | 2021 – 2022

- * Managed central transactional architectures, core reservation workflows, and user authentication management tools.
- * Addressed critical performance bottlenecks, refactored legacy components, and verified seamless server workflows under extensive transaction loads.

Mobile Engineering Portfolio

Cross-Platform Mobile Applications | Ongoing

- * Developed feature-rich, high-performance mobile applications utilizing Flutter and Dart, delivering clean UI components and smooth state management.
- * Connected mobile interfaces directly to enterprise backends, structuring asynchronous data pipelines and safe encryption standards for user interaction flows.

EDUCATION

Bachelor of Science (B.S.) in Computer Information Systems

AL-AHGAFF University, Hadhramaut, Yemen | 2019 – 2023

LANGUAGES

Arabic: Native

English: Professional Working Proficiency
