PROFESSIONAL SUMMARY

Versatile and results-driven **Software Developer** with over 3 years of practical experience in designing, developing, and deploying robust web applications and digital management systems. Highly proficient in backend development using **PHP and Laravel**, with strong expertise in relational database management via **MySQL** and advanced multi-module **APIs integration**. Adept at building responsive frontends using **JavaScript, TypeScript, and Tailwind CSS**, alongside hands-on knowledge in cross-platform mobile development using **Flutter and GetX**. Proven track record of optimizing application performance, securing system vulnerabilities, and managing independent production platforms like dhad.me and muqtabasat.com.

TECHNICAL SKILLS

- **Backend & Web Development:** PHP, Laravel Framework, ASP.NET, C#
- **Mobile Development:** Flutter, GetX State Management
- **Database Management:** MySQL, PostgreSQL, Query Optimization, Database Schema Design
- **Frontend Technologies:** JavaScript, TypeScript, Tailwind CSS, Vue.js 3, HTML5, CSS3
- **APIs & Integration:** RESTful API Development, Third-Party API Integration, Git & GitHub
- **System Optimization:** Web Application Security, Performance Tuning, Troubleshooting, Clean Code Standards

PROJECTS & EXPERIENCES

Founder & Lead Full-Stack Developer

dhad.me & muqtabasat.com | 2023 – Present

- Engineered, launched, and maintained active digital platforms, writing high-performance code in alignment with modern security benchmarks.
- Implemented clean structured architectures and managed comprehensive data entities using robust backend workflows and system scalability best practices.

Full-Stack Developer

Distributing System for Medicines Factory | 2022 – 2023

- Developed an end-to-end enterprise distribution application using **Laravel, PHP, Vue.js 3, and Tailwind CSS** to automate manufacturing and distribution tracking workflows.
- Engineered and optimized structured **MySQL databases** to manage high-volume transactional logs and ensure rapid, hassle-free inventory lookups.
- Designed and exposed secure **RESTful APIs** for fluid backend-to-frontend communication, implementing strict performance tuning to safeguard system endpoints and reduce data latency.

Backend Developer

AFAQ HADHRAMAUT Travel Booking Platform | 2021 – 2022

- Developed core ticket allocation modules, user authorization gateways, and transaction logging structures.
- Focused on secure code implementation and application performance alignment under high user loads.

Mobile & Independent Projects

Mobile Application Portfolio | *Ongoing*

- Built cross-platform application concepts using **Flutter and GetX**, utilizing structured state management and fluid UI design components.
- Connected mobile frontends to custom backend infrastructures through asynchronous API data consumption.

EDUCATION

Bachelor of Science (B.S.) in Computer Information Systems

AL-AHGAFF University, Hadhramaut, Yemen | 2019 – 2023

LANGUAGES

- **Arabic:** Native
- **English:** Professional Working Proficiency
